September 7, 2020

To: The Embassy of Italy in Hanoi

Dear Sir,

With active and valuable supports of the Embassy of Italy in Hanoi, the Italian Agency for Development Cooperation – Office in Hanoi and the other Italian relevant authorities, the “Project of improving the flood forecasting and warning system in Vietnam – Second phase” financed by the Italian Government is now well implemented by the Center for Hydro-Meteorological Observation (CHMO) and is about to be completed. The implementation of the system is extremely important for the security of the territories and populations of central and southern Vietnam and strategically contributes to the achievement of the sustainable development goals in accordance with SDGs 13 and 15 of the UN Agenda 2030.

The training of operation and management of Specialized Equipment, Mobile Survey Unit and Hydro-meteorological forecasting modeling in the South Central projected provinces and for CHMO is under way.

We propose to hold an event on presentation, check and handing-over of the hydro-meteorological forecasting modeling in Nha Trang city and also to visit some hydro-meteorological stations of project in Khanh Hoa and Ninh Thuan Province from 21-23/9/2020.

We would like to take this opportunity to invite The Italian Embassy to participate the above mentioned handing-over meeting and the field trip. The tentative agenda of the trip is herewith attached for your information.

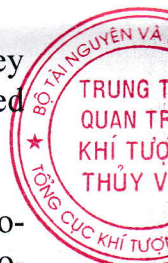

Your participation is our great pleasure. We would be grateful if you can confirm us your participation by 17/9/2020 (email: khanhnhms@yahoo.com)

Thank you for your kind attention and cooperation.

Best regards,

Dương Văn Khanh

Director

WORKING AGENDA AT THE SOUTH CENTRAL REGION HYDROMETEOROLOGICAL SERVICES

Locations: Khanh Hoa – Ninh Thuan

Time: 21-23/9/2020

Time	Activities	Participants	Locations	Remark
Monday, 21/9/2020				
8.30-11.00	Handing-over of the hydro-meteorological forecasting modeling to the South Central Region Hydrometeorological Services	All participants	Primises of the South Central Region Hydrometeorological Services-22 Pastuer, Nha Trang	Ceremony held in the Primises of the South Central Region Hydrometeorological Services
